COME TO OUR ANNUAL OPEN HOUSE.

Lincoln, Neb., Sept. 14, 2017 – The University of Nebraska–Lincoln Department of Animal Science is hosting its annual Open House for students at 6 to 8 p.m. October 23, 2017, at the Animal Science Complex on UNL East Campus.

Middle and high school students interested in pursuing a degree in animal science with a focus on companion animals, horses, or livestock, will have the opportunity to meet with our faculty and get information on majors and classes offered.

“This is a great opportunity to explore the major fields associated with animals as well as a chance to interact with faculty who teach and students who take classes in these areas,” Allison Raymond, Coordinator Admissions, said.

“Come join us and check out the animal science facility and take part in some hands on activities too.”

Students will venture through the animal science building on a scavenger hunt for information. They will also hear about the various animal-related organizations such as Equestrian team, Livestock and Horse Judging teams, Students for the Education of Exotic and Companion Animals, Pre-Vet Club, and Block and Bridle.

For more information, please contact Alli Raymond at araymond2@unl.edu or 402-472-0204.

We look forward to seeing you at this year’s Open House.

The University of Nebraska-Lincoln Animal Science Department is composed of a unique faculty with diverse expertise, talents and experiences in the animal sciences. We have individuals who excel in teaching as well as individuals who lead the world in discovery and dissemination of new ideas in animal biology, care and products to enrich the lives of people and animals. Our vision relays our common passion to promote the success and/or enrich the lives of each student, each producer, each client and each citizen in Nebraska and around the world.

University of Nebraska–Lincoln Extension educational programs abide with the nondiscrimination policies of the University of Nebraska–Lincoln and the United States Department of Agriculture.
