Group I

**Sporting Dogs**

This smallest member of the sporting group originated in the United States of America. Coat is moderately long, flat or wavy, and well-feathered. Ears are long and pendulous. Color is black (black and tan), ASCOB (any solid color other than black), or parti-color. These dogs have a solid, compact build (131/2 to 151/2 inches high at the withers). Temperament is energetic and merry. They were bred for hunting.

This sporting breed originated in Great Britain. Coat is long, flat, wavy, and well-feathered. Ears are long and pendulous. Colors are black and white, liver and white, blue, or liver and roan. Breed is of medium size with sturdy, compact bodies (19 to 20 inches high at the withers) and docked tails. Temperament is friendly and eager. They were bred to hunt and retrieve upland game.

This sporting breed originated in Ireland. Coat is short and fine on the head and forelegs, moderate in length on all other parts. Color is mahogany or rich chestnut red. This medium-sized breed stands 25 to 27 inches high at the withers. Originally, this dog was used as a bird dog, but because of its bold yet gentle and lovable temperament, it also makes a good companion.

This sporting breed originated in Newfoundland. Coat is short, dense, and water repellent. Color is black, yellow, or chocolate. Breed is of medium size (211/2 to 241/2 inches high at the withers) with a strong build. Although widely used to retrieve game, their gentle temperament makes them good pets. They are also a popular breed as dog guides for the blind.

**Dog Breeds – Traits**

This hound breed originated in England. Coat is close and hard. Colors are multiples of black, white, brown, and orange. Breed has a solid build and is bred for two sizes: less than 13 inches high and 13 to 15 inches high at the withers. Temperament is cheerful and obedient. They are bred to hunt cottontail rabbits.
This hound breed originated in Norway. Coat is thick and hard. Color is gray; shade depends on the amount of black tips. Breed is of medium size (19 1/2 to 20 1/2 inches high at the withers) with a tightly curled tail carried over the back. Temperament is bold and energetic. They are used for hunting moose and other large animals.

This hound breed originated in Great Britain. Coat is short, close, smooth, and firm in texture. Color of this breed varies. Breed is medium-sized, measuring 18 to 22 inches high at the withers. Originally, this dog was bred for racing. They also make good pets due to a very charming, affectionate, and intelligent personality.

This hound breed originated in South Africa. Coat is short, dense, and sleek. Color is light wheaten to red wheaten. Breed has a strong, muscular build and its height ranges from 24 to 27 inches at the withers. Feature characteristic is the ridge of hair on the back that grows in the opposite direction to the rest of the coat. They are even tempered, but reserved with strangers. These dogs are used to hunt lions and pumas.

This working breed originated in Japan. Outer coat is harsh, straight, and stands off the body. Color includes any white, brindle, or pinto, with or without markings. Breed is large (24 to 28 inches high at the withers), heavy-boned with a large, curled tail and erect ears. Temperament is alert, dignified, and courageous. They are aggressive towards other dogs.

This working breed originated in Europe. Coat is flat, short, and shiny. Color is fawn or brindle. Breed has a square build and is of medium size (21 to 25 inches high at the withers) with docked tail. Temperament is alert, courageous, and playful, yet wary of strangers. They were originally used for fighting, but are now used as police dogs, guard dogs, and dog guides for the blind.

This working breed originated in Germany. Coat is smooth, short, and thick. Color is black, red, blue, or fawn; all have rust markings. Breed measures 24 to 28 inches high at the withers with a muscular, compact build and docked tail. Temperament is alert, fearless, and obedient. They are used as watch dogs and guard dogs.

**Great Dane**

This working breed originated in Germany. Coat is short, thick, and glossy. Color is brindle, fawn, blue, black, or harlequin. Breed is large (not less than 28 inches high at the withers) with a powerful, smooth-muscled build. Temperament is spirited, courageous, and friendly. They were developed to hunt wild boar, but are now used for hunting and guarding.

**Breed:**
- Great Dane
- Coat: Short, thick, and glossy
- Colors: Brindle, fawn, blue, black, or harlequin
- Size: Large (not less than 28 inches high at the withers)
- Temperament: Spirited, courageous, and friendly

**Siberian Husky**

This working breed originated in Siberia. Coat is double and medium in length giving a well-furred appearance. Color and pattern vary, and they commonly have facial markings. Breed is moderately compact and medium in size (22 to 27 inches high at the withers) with erect ears and a brush tail. Temperament is friendly, outgoing, and alert. They are commonly used for sled racing.

**Breed:**
- Siberian Husky
- Coat: Double and medium in length
- Colors and patterns: Vary
- Size: Moderately compact and medium (22 to 27 inches high at the withers)
- Temperament: Friendly, outgoing, and alert

**Saint Bernard**

This terrier breed originated in Switzerland. Dense coat can be short-haired or long-haired. Tail appears bushy. Color is red and white. Breed is large in size, a minimum of 25 1/2 inches high at the withers. This breed's highly developed sense of smell makes it excellent for rescue work.

**Breed:**
- Saint Bernard
- Coat: Dense, short-haired or long-haired
- Colors: Red and white
- Size: Large (minimum of 25 1/2 inches high at the withers)
- Temperament: Alert and quick

**Airiala Terrier**

This terrier breed originated in Great Britain. Coat is hard, wiry, and thick. Color is tan with a black or dark upper body and sides. Breed is sturdy, well muscled, and the largest of the terriers (approximately 23 inches high at the withers). These dogs are bred to hunt small game and are noted for their loyalty, companionship, and protection.

**Breed:**
- Airiala Terrier
- Coat: Hard, wiry, and thick
- Colors: Tan with a black or dark upper body and sides
- Size: Sturdy, well muscled (approximately 23 inches high at the withers)
- Temperament: Alert and quick

**Cairn Terrier**

This terrier breed originated in Scotland. Coat is double-coated with profuse, harsh outercoat and short, soft undercoat in any color except white. Breed is small (9 1/2 to 10 inches high at the withers) with a strong build. These dogs are bred to dig foxes, otters, and other vermin from rocks and cliffs.

**Breed:**
- Cairn Terrier
- Coat: Double-coated with profuse, harsh outercoat and short, soft undercoat
- Colors: Any color except white
- Size: Small (9 1/2 to 10 inches high at the withers)
- Temperament: Alert and quick

**Wire Fox Terrier**

This terrier breed originated in England. They are one of the most widely known and distributed purebred dogs. Coat is wiry and extremely thick. Color is predominantly white. Breed has a sturdy build (no more than 15 1/2 inches high at the withers). Temperament is alert and quick. They are used to drive foxes from their holes.

**Breed:**
- Wire Fox Terrier
- Coat: Wiry and extremely thick
- Colors: Predominantly white
- Size: Sturdy build (no more than 15 1/2 inches high at the withers)
- Temperament: Alert and quick

</tr>
</tbody>
</table>
Pekingese

This toy breed originated in China. Outercoat is long, coarse, and flowing, while undercoat is thick and soft. Color and markings vary. Breed has a solid and compact build weighing no more than 14 pounds. Temperament is confident, affectionate, and lively. They are used for house pets and companionship.

Pomeranian

This toy breed originated in the German province Pomerania on the Baltic Sea. Noted for its double coat: outercoat is long, straight, and hard, while undercoat is soft and dense. Color patterns are black and tan,indle, or parti-color. Tail is thick and curls on the back. Breed is small (3 to 7 pounds) with a cobby, yet balanced appearance. Temperament is intelligent and spirited. They are used for pleasure and companionship.

Pug

This toy breed originated in the Orient. Coat is fine, smooth, soft, short, and glossy. Color is silver, apricot-fawn, or black; all have black masks. Breed has a square and cobby build weighing 14 to 18 pounds. Even-tempered, they are playful, dignified, and outgoing. They are used for pleasure and companionship.

Schipperke

This toy breed originated in the Orient. Coat is luxurious, dense, long, flowing, and double-coated. Color will vary. This small breed ideally measures 9 to 10 1/2 inches at the withers. These dogs were bred as palace pets. Today they still have a proud bearing and are outgoing, happy, and affectionate companions and house pets.

Yorkshire Terrier

This toy breed originated in England. Coat is glossy, fine, silky, straight, and moderately long. Color is dark steel-blue with a tan head. Breed has a neat, compact build, and its weight should not exceed 7 pounds. They have a very confident, spirited manner and are used for pleasure and companionship.

American Eskimo Dog

This non-sporting breed was developed in the United States of America. Outercoat is long and straight with no wave, while undercoat is dense. Color is primarily pure white, yet some appear white with cream. Breed has three size categories: Standard - 15 to 19 inches high at the withers; Miniature - 12 to 15 inches high at the withers; and Toy - 9 to 12 inches high at the withers. This breed is cheerful, gentle-mannered, and affectionate, making it an excellent pet and watchdog.

**Group VII**

**Herding Dogs**

**Old English Sheepdog**

This herding breed originated in England. Coat is long, shaggy, and hard textured. Color is gray, grizzled, blue, or blue merle; with or without white markings. Breed has a strong, compact, square build, standing a minimum 21 inches high at the withers. Temperament is intelligent and adaptable with no sign of aggression. They are well suited for herding.

**Collie**

This herding breed originated in Scotland. Coat is rough or smooth: *rough coat* is medium to long and feathered; *smooth coat* is short over the entire body with some feathering. Both are double-layered, soft, and water repellent. Color and pattern vary - black and white with or without tan points is most common. Breed is of medium size (18 to 22 inches high at the withers) with an athletic build. Temperament is intelligent, alert, responsive, and affectionate. They make excellent herding dogs, watchdogs, and companions.

**Shetland Sheepdog**

This herding breed originated in the Shetland Islands of Scotland. Outercoat is long, straight, and harsh, while undercoat is short, furry, and very dense. Color is black, blue merle, or sable with varying amounts of white and/or tan markings. Breed is small (13 to 16 inches high at the withers), agile, and sturdy. Temperament is extremely loyal, affectionate, and somewhat reserved with strangers. They are bred for herding sheep and are good watchdogs.

**German Shepherd Dog**

This herding breed originated in Germany. Outercoat is straight, harsh, of medium length, and lies close to the body. Color is black/tan, sable, or all black. Breed is of medium size (22 to 26 inches high at the withers) and well muscled. Temperament is loyal and fearless. They are easily trained and commonly used for police work and dog guides for the blind.

**Bouvier des Flandres**

This herding breed originated in southwest Flanders and the northern French plain. Coat is rough and harsh to the touch. Color is fawn to black. Breed is powerfully built, compact, and stands 23 1/2 to 27 1/2 inches high at the withers. This dog is intelligent and friendly and is sometimes used as a dog guide for the blind.

**Australian Shepherd**

This herding breed originated in the United States of America. Coat is medium length, straight to wavy, and water resistant; the undercoat varies in thickness with climate variations. Color is blue merle, black, red merle, or red - all with or without white markings and/or tan (copper) points. Breed is of medium size (18 to 23 inches high at the withers) with a solid, muscular build. Tails are naturally bobbed or docked. Temperament is good-natured, active, intelligent, and used for guarding and herding livestock.
This herding breed originated in Wales. Coat is of medium length with short, thick, water-resistant undercoat, while outercoat is coarser and longer. Color can vary - red, sable, fawn, black, and tan - with or without white markings. Breed is moderately long and low, standing 10 to 12 inches high at the withers. Bold but kind, this breed is never shy or vicious, making a good herding dog or companion.
