Use these diagram cards in conjunction with the Improving a Muzzle diagram cards and steps in the proper sequence and properly apply the muzzle on Fippp using the technique you have learned. Situation: Fippp stands, facing the front.

1. Fold the muzzle under the dog's chin with the outside mouth facing the dog.
2. Pinch the muzzle with the mouth, lightly pulling the muzzle towards the dog's mouth.
3. Pinch the muzzle with the mouth, lightly pulling the muzzle towards the dog's mouth.
4. Snug the muzzle tight around the dog's mouth, allowing the dog to breathe normally.

Repeat the above steps until the dog is comfortable with the muzzle.
1. Push the paw to extend the nail.

2. Find the quick.

3. Properly trim the nail.

4. Use styptic powder to stop bleeding if cut into quick.

5. File the nail.
