11	Other	0	0.00%
0	Not Applicable	0	0.00%

### You selected 'Inclusiveness'. Please provide written comments on your choice.: Bryan Reiling

- Dr. Reiling is an amazing professor no matter your background he always makes sure you are included and welcomed
- I came into this class not knowing a thing about farm animals and I appreciate how he never made the people who didn't grow up on farms to be left out. I have improved on grades in this class which means he is teaching as if everything is new to every person in this class regardless of our background.
- It's easy to be engaged in the class and you don't feel left out

### You selected 'Course Performance Expectations'. Please provide written comments on your choice.: Bryan Reiling

- Doing well in the class is the main thing keeping me focused in the class
- I know what is expected in my exams I feel prepared for my all my quizzes and all the material is taught very well
- It is such an awesome class and is very easy if you take notes and show up.
- Dr. Reiling always make sure that we know what is expected of us and he always tell us when things are due. He also goes over due dates at the beginning of every class period. He also does a great job of making sure that we have what we need to be successful.

### You selected 'Course Challenge'. Please provide written comments on your choice.: Bryan Reiling

- He has been one of my favorite/best teachers/instructors I have ever had. High school and college-that says a lot. I enjoy not only the course and material he teaches, but how he teaches and his personality. He makes me enjoy coming to class. I enjoy many other things about him as well. Great professor.
- I feel he was always pushing us in the course to do better and never let us off the hook easy.
- This course really tough me a lot of information.

# University of Nebraska, Lincoln

## CASNR Fall 2022 Course Evaluations

**Course:** ASCI-100-010.1228: FUND OF ANIMAL BIOL&IDUS ASCI100 SEC 010 Fall 2022  
**Instructor:** Bryan Reiling \*  
**Response Rate:** 91/105 (86.67 %)

### You selected 'Engagement in Assignments or Projects'. Please provide written comments on your choice.: Bryan Reiling

- The assignments were challenging and if I didn't know I was able to get the help that I needed pretty easily.
- I appreciate how Dr. Reiling always includes videos and statistics that keeps class interesting and is very fun.
- The quizzes were always helpful to remind myself of what we had gone over in the past week. Kahoots also helped remind me what we went over that day.

### You selected 'Course Learning Materials and Tools'. Please provide written comments on your choice.: Bryan Reiling

- The power point slides are very helpful and make it easier to study for exams.
- The notes provided on Canvas with blanks really help my learning. BR also does a really great job of explaining everything.
- The slides and notes along with other supplementary materials have been very beneficial and clear to help me understand the course requirements.
- Course learning material has been very interesting and easy to pay attention to during lecture.
- There are some really cool resources to help us take notes, such as the power point template. Also, if I miss anything, I can just watch the recorded lecture off of Zoom and fill in my notes. There are a ton of study questions for each unit, which is helpful, cause they often pretty clearly connected to test questions.
- Giving the fill in notes is very helpful with this course! The notes are very good study materials. I thoroughly enjoyed the course learning material.
- details in notes are really helpful
- I really appreciate how there is constant access to all of the notes, lectures, slides, etc. It makes going back and reviewing at any time possible and easy.
- Dr. Reiling is very good at providing every resource possible to set up students for high success.
- The quizzes and notes helped a lot on the tests.
- I think the course learning materials and tools are beneficial in learning. The slides are nice and taking notes on them helps engrain it into my head.
- The power points we used to take notes in class helped me to understand ASCI so much better. I don't have an ASCI background whatsoever, so the learning material really opened my perspective and strengthened my understanding of the topic. The notes provided the information we needed to know and then some, which I thought was really cool. Finally, the organization of the notes really helped me while studying for the quiz's and exams. Overall, the learning material helped me improve my grade and learn about ASCI!
- Professor Reiling has great resources that make the course load easy and doable. His course materials support attendance. His class is much easier when you attend and participate.
- I really appreciated that there was an option to watch class via Zoom. There were a couple times throughout the semester where I was unable to attend in person, but I was able to watch on Zoom.
- BR's lectures are amazing! They are engaging and I always walk out of his class with so much more knowledge. Most of the students in this class have somewhat of an ag background, but Dr. Reiling teaches us all things that we didn't know before his class. Giving us the outline of the slides is a great tool, so we can fill it out as we go through lecture. This allows us to listen, and to not have to try to type everything he says.
- I think that the course learning materials and tools has been the most beneficial for me. I think that they are the most beneficial because Dr. Reiling has everything posted in the modules that you might ever need to help you study. I have used the materials as study references several times and I always do well on the quizzes that we take. All of the resources that he has available for the students to use helps make the course a little bit easier.
- This course is by far my favorite by far in this semester, I feel engaged in learning because Dr. Reiling's energy and activeness when he teaches. Slides and Student outlines to fill out during the module help me learn the information
- I feel that Dr. Reiling's use of in-class questions and review tools are very beneficial to get us involved and to think about the information that we covered.
- This course gives you everything that you need to learn the class. The notes are easy to follow, there are plenty of videos given to us, and the statistics given to us are up-to-date.
- I thought the presentations and videos you used were easy to follow and helped me to better grasp the content.
- All the material discussed is very well laid out and is always on the exam exactly the way it was explained in class
- I have found that the slides we go over in class are very helpful for me. Also the quizzes really test my knowledge and prepare me for the exams.
- I really enjoyed the course content and everything I learned I know I will be able to retain, which isn't true for many classes.
- Dr. Reiling gives us the materials that we need to succeed in his class.
- I just enjoyed what we were learning about.
- I loved the notes made available to us. While we were still learning a lot, it made it easier to see what was important to know.
- Many ways to view materials along with supplemental videos and class recordings.
- All of the information given within this course was very insightful and taught me a lot about the animal industry.
- I really appreciate how the notes are set up and that lectures are recorded so that I can find information easily. It is also helpful for long words and complex information.
- BR is very descriptive when teaching and I like the format of his slides and how they are presented.
- Dr. Reiling is great in preparing the slides and course material, for every topic he has sufficient knowledge and preparation that the class is both fun and informative.

## CASNR Fall 2022 Course Evaluations

**Course:** ASCI-100-010.1228: FUND OF ANIMAL BIOL&IDUS ASCI100 SEC 010 Fall 2022  
**Instructor:** Bryan Reiling \*  
**Response Rate:** 91/105 (86.67 %)

### You selected 'Active Learning Opportunities'. Please provide written comments on your choice.: Bryan Reiling

- Bryan does a good job of keeping the class involved and keeps us all active in the class.
- I like it when we use examples in class
- I found it really helpful that we did kahoot quizzes at the end of class about the information we learned in class that day.
- The kahoots that are done really helped me learn the material
- The in class activities (Kahoot), quizzes, and exams provide for many learning opportunities.
- You always engage the students when you are teaching and I really like that.
- I think this class, especially including the lab, gave many hands-on opportunities to better understand what we were learning about in class.
- I really enjoy doing hands on things. Doing the lab for this class has helped me a lot!!
- There were several out-of-class opportunities that Dr.Reiling shared with the students and they were also given bonus points for attending some of the events.
- The videos and in person demonstrations during lecture have helped me learn
- The review sessions with Brandon

### You selected 'Quality Interactions with Students'. Please provide written comments on your choice.: Bryan Reiling

- BR was very engaging in the lecture and made sure to actively engage students. He would often walk throughout the hall and ask different students questions about what we were learning that day and how to explain certain processes.
- Dr. Reiling is not less of great! He really made is think outside of the box and even shared some kind words to me in times of stress!
- BR made class super fun and interactive. It made me want to learn.
- He is excellent with being interactive with us students and keeping the class entertaining as well as informative.
- I think that its super amazing the way that you interact with all of the students in the class it feels like your talking right to everyone
- Bryan Reiling does a good job of walking up to the top row to make sure even those kids are being asked questions, not just the kids in the front rows.
- Dr. Reiling walks around the room and engages the students. This helps me pay attention and actually understand what is being taught.
- Bryan Reiling was very good at interacting and applying real world situations to the material we were learning
- Dr. Reiling does a really good job of engaging with the students during his lectures. He is visibly passionate about the topics he presents and is good about asking the students questions.
- A lot of my friends were also taking this class which made me excited to come to class. Class was enjoyable because of this and I was much more ready to learn.

### You selected 'Timely and Useful Feedback for Improvement'. Please provide written comments on your choice.: Bryan Reiling

- Dr. Reiling is a wonderful professor. He interacts with the class and not just giving a lecture.

### You selected 'Support'. Please provide written comments on your choice.: Bryan Reiling

- BR is easy to communicate with and usually responds in a timely manner. I feel comfortable asking questions or asking for help if I need it.
- There when you had questions

# University of Nebraska, Lincoln

## CASNR Fall 2022 Course Evaluations

**Course:** ASCI-100-010.1228: FUND OF ANIMAL BIOL&IDUS ASCI100 SEC 010 Fall 2022  
**Instructor:** Bryan Reiling \*  
**Response Rate:** 91/105 (86.67 %)

### You selected 'Instructor Communication'. Please provide written comments on your choice.: Bryan Reiling

- Dr. Reiling does a stellar job of communicating all deadlines and due dates. He commonly uses Canvas to post when quizzes are due or whether we have class or not. This has helped my learning experience significantly.
- Explains material well and has a passion for what he teaches.
- I feel that BR does a great job with communicating when deadlines are due through in class reminders as well as canvas reminders. He also actively listens if we say we are going to be gone for his class.
- Dr. Reiling is an excellent professor. He communicates very well, and I know everything that I am expected to complete and when. He sends out emails often to let us know of changes and how we are doing within the class. He is the best!
- If we have questions regarding an assignment, quiz or exam, he always gets back to us in a timely manner and with a through explanation
- I feel the information given in class is given in a straight forward manner. I've never been a fan of classes that only have quizzes and exams. I think a little more hands on approach with worksheets in class, or outside written reports on a certain subject would be beneficial. Basing an entire semester of grades on strictly quizzes/exams leaves people in the dark who don't take exams well. All in all the class wasn't bad, just needs a little more variety.
- Dr. Reiling is one of the University of Nebraska's most devoted professors in my experience. He makes his students feel that they are his highest priority and UNL should be proud to have him on its staff.
- Dr. Reiling is very good about keeping all students engaged in learning and makes sure everyone feels welcome.
- Professor Reiling involves and communicates with his students during class time by using fun story-like examples with questions.
- He is very understanding of unexpected situations that come up and is willing to work with you.
- I really enjoyed this class and I loved how much communication there was. It is really helpful for me in my hectic schedule. I also appreciate the time extension on the quizzes. That was always a stress reliever if I needed to wait one more day just to try and get everything done. I also love the 3 chances at the quiz. Those are my favorite way to learn. I liked being able to go over more information repeatedly.
- Dr. Reiling did a great job at sending out announcements in a timely manner.

### You selected 'Other'. Please provide written comments on your choice.: Bryan Reiling

### You selected 'Not Applicable'. Please provide written comments on why you selected your choice.: Bryan Reiling

Question	What could use some improvement? From the following list of teaching elements, what is the one thing that could most use some improvement to increase your learning? After your selection, please provide written comments about the element.	n	%
1	Inclusiveness	0	0.00%
2	Course Performance Expectations	2	2.22%
3	Course Challenge	8	8.89%
4	Engagement in Assignments or Projects	3	3.33%
5	Course Learning Materials and Tools	1	1.11%
6	Active Learning Opportunities	4	4.44%
7	Quality Interactions with Students	6	6.67%
8	Timely and Useful Feedback for Improvement	4	4.44%
9	Support	2	2.22%
10	Instructor Communication	4	4.44%
11	Other	3	3.33%
0	Not Applicable	53	58.89%

### You selected 'Inclusiveness'. Please provide written comments on your choice.: Bryan Reiling

### You selected 'Course Performance Expectations'. Please provide written comments on your choice.: Bryan Reiling

- This isnt a huge deal but i hand write my notes and a lot of the times i have to take pictures of the slides in order to get them all down before he moves on.

# University of Nebraska, Lincoln

## CASNR Fall 2022 Course Evaluations

**Course:** ASCI-100-010.1228: FUND OF ANIMAL BIOL&IDUS ASCI100 SEC 010 Fall 2022  
**Instructor:** Bryan Reiling \*  
**Response Rate:** 91/105 (86.67 %)

### You selected 'Course Challenge'. Please provide written comments on your choice.: Bryan Reiling

- I know this is a hundred level class but I felt as though it wasn't challenging enough.
- I think for people that didn't grow up with an ag background the material is new and challenging but for the people that grew up with it, this is just a repeat of information with some added stuff.
- I understand that this course is basics of Animal Science and Industry. I feel that when we covered information that I did not know it was presented in a way that was easy for me to learn. I only choose course challenge because I have a basic knowledge of most of the information covered.
- I wish this course went a little more in depth on each species but as a freshman this is a good course.
- I found this course very easy, I did not feel it was challenging, however for someone who knows nothing about animal science it definitely could be.
- I feel like this class is super fun and provides a challenge while limiting the amount of stress.
- It wasn't necessarily the most challenging class, however I do think it was a good amount of challenging and new, useful information that I learned a lot from.
- For me specifically, I had a great ag teach in high school and took all the animal science classes I could get my hands on. Thus, for me, this class just wasn't that challenging.

### You selected 'Engagement in Assignments or Projects'. Please provide written comments on your choice.: Bryan Reiling

- I do not think there is a problem with anything listed. This is one of my favorite classes this semester.
- There aren't any assignments or projects. Our grade is based solely on attendance, quizzes, and exams.

### You selected 'Course Learning Materials and Tools'. Please provide written comments on your choice.: Bryan Reiling

- Seeing as though this is a lecture, there are a lot of days where the tools used for learning were just a slideshow presentation. Sometimes we would engage with the people around us by doing activities or having discussions, but often we were just listening to Dr. Reiling go through slideshows.

### You selected 'Active Learning Opportunities'. Please provide written comments on your choice.: Bryan Reiling

- I am not in the lab section this semester so I do not have the active learning part of it.
- I commented on that in the previous comment.

### You selected 'Quality Interactions with Students'. Please provide written comments on your choice.: Bryan Reiling

- I just don't really have much to complain about. It's a big lecture, I wouldn't expect much collaboration, and this doesn't hurt my learning experiences.
- I think that there is a lot to gain from working with other students. If students were required to work together on a small project or something, I feel that it would really help engage and build networks, especially for first semester freshmen.
- We had a few interactions with the students, but not so many. I understand it was a lecture, but there could have been a lil more interaction. Even though I am an Agribusiness major, I wish I would have taken the lab. Maybe extending an invitation to counselors to remind Agribusiness students that even though they don't have to take the lab, it could make the class more interesting by seeing lecture material in real life.
- There have been a couple times where I remember working with group members to discuss a topic that is brought up in lecture. However, I think that more group work might benefit some of the students. I learn a lot from Dr. Reiling's lectures but I also feel like if I were to work with students and get their perspectives on things than I would be able to learn a little more.
- As a lecture class it can be difficult to include activities with other students. This isn't necessarily something that needs to be changed or improved, just the most lacking point I would say.

### You selected 'Timely and Useful Feedback for Improvement'. Please provide written comments on your choice.: Bryan Reiling

- Dr. Reiling is not the best at providing feedback or getting back to students in a timely manner.
- There wasn't much feedback for improvement that was given.
- The only assignments we get are quizzes, and they only sample from a pool of questions. There isn't really any feedback material to use for the main test besides material you find yourself posted online.

### You selected 'Support'. Please provide written comments on your choice.: Bryan Reiling

- There is good support if you are struggling especially with review sessions

### You selected 'Instructor Communication'. Please provide written comments on your choice.: Bryan Reiling

- I feel he could of been better with communication but overall was a great class.
- I think BR's only form of communication is face-to-face. He does not seem to like email in the slightest, which is fine unless you need him at a time not during class.
- It was difficult to get in contact a few times via email and canvas.

# University of Nebraska, Lincoln

## CASNR Fall 2022 Course Evaluations

**Course:** ASCI-100-010.1228: FUND OF ANIMAL BIOL&IDUS ASCI100 SEC 010 Fall 2022  
**Instructor:** Bryan Reiling \*  
**Response Rate:** 91/105 (86.67 %)

### You selected 'Other'. Please provide written comments on your choice.: Bryan Reiling

- Not a lot needs improvement
- I have nothing that I can think of that would need to be improved

### You selected 'Not Applicable'. Please provide written comments on why you selected your choice.: Bryan Reiling

- I felt the class was put together well.
- The course is good and doesn't need improvement.
- The class has a very welcoming environment and allows us to freely share.
- I think everything works well for learning in this class.
- I don't think anything really needs to be included. It has been a very good course and I have not be confused at all.
- I do not have any complaints about this class
- Dr. Reiling's class is awesome! No feedback here!
- I think the class is great how it is!
- This professor does a great job of including everything on that could improve list. He supports outside classroom learning, and he is inclusive in the way that if you did not come from an agriculture background this would provide you with the material that others take as "common sense."
- I just choose this one cause I had to.
- I think that this class is exceptional in all of those areas. I don't know how we could improve it.
- N/A
- I feel as though this course is well laid out and structured for any student to excel at as long as they put in the effort.
- I thought that it was very good.
- I really don't know what needs to be changed
- I can't think of anything that would improve this course.
- I enjoyed every part of this course.
- I thought the class was fun and engaging.
- he tries his best
- I feel he is very easy to learn from and does not need to change anything
- I really enjoyed this class and feel there is no need for improvement.
- Everything about the course was great!
- He has done a really good job this semester and has by far been one of my best professors. I can't wait for future classes with him!
- Dr. Reiling is a very good professor and I don't have anything bad to say
- I really, really enjoyed this course. No complaints
- I don't think there any issues in your current teaching style.
- I really enjoy being in your class!
- Bryan Reiling makes the hard concepts and complicated processes very easy to understand.
- Nothing really - good class.
- v
- There is not anything I would change about the course I really enjoyed it
- I think this class is amazing and there is nothing that needs improved.
- I thought that everything was good in this class.
- I think this is a very well-designed course.
- This class is my favorite by far and couldn't think of anything that I would change.
- In all honesty, this was the only class I genuinely liked and never had a problem or self-conflict with; therefore, there is nothing I would change.
- There isn't anything.
- Nothing needs improved.
- I had no complaints about this course and I found that it was really beneficial to me.
- Great course man, thanks

### Describe the most positive learning experience(s) in this class.: Bryan Reiling

- Very enthusiastic professor that makes class fun to attend.
- Easy to listen to, easy to understand, makes going to class enjoyable and worthwhile. I feel like this is one of my only classes where I am actually learning and retaining information
- I like the Kahoots because it helps give me a general idea of what I need to study for the next quiz/exam.
- I enjoyed when we played telephone with our rows. That increased engagement and helped foster a positive learning environment.
- Almost everything is a positive learning experience in this class. I enjoy everything about coming to class and feel that I gain a lot of knowledge out of every lecture. Overall, the most positive learning experience is the support and materials available to study for quizzes and exams. It's still challenging, but provides a base of where to start studying.
- Sometimes, Bryan can be a pretty funny guy and that can help me to remember information.
- When Dr. Reiling explains things he is not afraid to put himself out there and say or do something funny to make us laugh.
- The lecture is actually really well done - BR is engaging and interesting to listen to.
- Learning about the basis of genetics in different species of animals. (Coloration, diseases, traits)
- I think in class discussion and activities have been the most positive learning experiences.
- He is very enthused about the topic he is teaching which makes learning about the subjects that much more fun and it sticks in your head easier so when taking tests, it is easier to remember the day and topic he was talking about.
- The kahoot and the reviews on Monday night help be the most positive.
- Lectures are very constructive and introduce material well.
- took more time to slow down and explain things
- The stories and real world examples given in lecture
- The videos he provides are super helpful.
- Having the review session for test/quizzes
- The most positive learning experience was when he would show us all the videos of things we really didn't know about.
- The way Dr. Reiling teaches is great! He is very inclusive and perceives himself as being very knowledgeable about the topics that he educates on. His class is one of the very few that I looked forward going to, and they never made me regret this major! I grew up with little education on animal science and now I am more confident then ever!
- His lectures are easy to follow along with because of the notes and his enthusiasm.
- Very easy to stay alert and easy to learn due to the way the information is taught
- The kahoots are very helpful
- Kahoots at the end of class are helpful for me to know what I learned from the class and what I need to study more.
- I loved BR's teaching style and his willingness to stay after class and discuss topics with students.
- The kahoots at the end of each class.
- I really enjoyed the section over cattle, since that's what I'm interested in
- The notes and the slides are the best learning experience in this class.
- I really enjoy his engagement with the class. Walking around and asking us questions kept me focused.
- He was always very prompt in answering my messages/questions and gave good answers.
- I love the stories that BR tells to help support the points. He does a great job in connecting dots from the content to real life application. I am also gone quite a bit for this class and the materials provided (and the recorded lectures help)
- The layout of lecture supports learning so well!
- Dr. Reiling is great at lecturing. I am never bored in class. I like that he uses Kahoot, and I like that he allows us to zoom in. That allowed me to complete requirements for my other classes, and still attend his class. I also loved the review sessions he had his TA do.
- The most positive learning experience in this class has been Dr. Reiling. He is always in such a fun mood and it makes lectures more entertaining. He keeps things light and fun. This helps to make the lectures easier and it is fun to learn all of the things that he is teaching. There is also something for everyone in this course. There is a unit for beef people, swine people, etc. It is very well rounded and I feel like I have gained a lot of knowledge that I will take with me through the rest of college.

## CASNR Fall 2022 Course Evaluations

**Course:** ASCI-100-010.1228: FUND OF ANIMAL BIOL&IDUS ASCI100 SEC 010 Fall 2022  
**Instructor:** Bryan Reiling \*  
**Response Rate:** 91/105 (86.67 %)

- Being engaged in class and understanding material because of how it is given to me.
- How fun he makes the class
- Dr. Reiling makes our learning experience fun and enjoyable. He is always in a good mood and we all love the Kahoot reviews.
- I do enjoy how interactive you make class.
- Professor Reiling is a very good educator.
- When questions are asked directly to students. The kahoot reviews.
- The most positive learning experiences would be the slides with the copy of each notes copied down already. I think this is good because with all the material you cover, it saves a lot of time.
- All of the videos
- The class is engaging and there is never a dull moment with B.R.
- When Professor Reiling starts explaining a topic you can see how much he enjoys teaching because he speaks with passion.
- My most positive learning experience in this class is that it has helped me gain a good understanding of animals and animal production.
- I enjoyed learning about genetics.
- Fun to hear. explains great
- Lectures
- He is super great and fun! His content was easy to understand and learn from.
- He is very good at making sure we understand what he is teaching and helps us if we don't understand.
- How thorough he is with everything, and how well he can explain a topic
- Learning things I did not know anything about.
- Everything.
- Being able to participate in class and answer questions, BR making the class fun and cracking jokes.
- I really enjoyed all of the labs that we did and think the learning in class was very helpful and interesting, especially for labs. I feel like I took a lot of helpful information away from this class.
- Dr. Reiling keeps the class engaged by moving around the room and having the occasional activity.
- Being able to talk to you in a more casual manner.
- Engaging with the students
- Kahoot reviews
- I loved everything I learned in this class and felt that Dr. Reiling really did care that we all succeeded.
- The lecture following the notes and the quizzes.
- All the examples and real life stories he shares about what we are learning.
- The professor is overall a fantastic person who wants the best for his students. He makes learning easy and fun.
- - When BR would tell stories from his childhood (his dogs, grandparents, etc)
- The lectures are not only interactive but very information filled. Dr. Reiling is a great teacher that really knows his information well and makes learning fun.
- I really liked how the lectures were presented. I also appreciated that the quizzes has three attempts so that students could expose themselves to additional questions and get a better idea of what areas they needed to study more before the exam.
- Dr. Reiling is very knowledgeable about what he is talking about and goes through everything slowly and thoroughly to make sure everyone understands.
- I loved learning about the horse and companion animal sectors because I am not as familiar with them.
- I enjoyed the lectures and learned a lot during them.
- How informative the lectures were and how everything I learned I was interested in.
- Every class is a positive learning experience. We learn a lot and have fun while doing it.
- I enjoyed how enthusiastic Dr. Reiling is in class!
- I love how ethusiatic Dr. Reiling is for this class, he is always smiling , eager to teach students the knowledge that he is really into, and provide students with every support that he could.
- I love livestock. It was super fun to talk about the digestive system of cattle vs. horses, I started understanding why we do certain things on the farm the way we do. it was cool to tell dad what I had been learning.
- The review sessions

### Describe the least positive learning experience(s) in this class.: Bryan Reiling

- Weekly quizzes can become annoying but it is also good to get extra grades.
- None
- There were a few times when students in the class were talking throughout the entirety of the lecture. This was very distracting as a student.
- I can positively say that there is none.
- Some days in class I just can't focus for a whole 50 minutes so I tend to miss a little information.
- N/A
- Uhhhhh.... we spent like a whole day watching rodeo videos and while it wasn't bad, it just felt like my money I used to pay for this class was being lit on fire in front of me. It wasn't actually a big deal though - it was kinda fun. :)
- Nutrition

- Sometimes lectures seemed long when it was just slide after slide but it wasn't bad. I enjoyed the information and learning of this course.
- There is no least positive learning experience from this class
- the least positive thing is that notes are sometimes hard to keep up on
- Its hard to learn when Mr. Reiling is not present in lecture I've found.
- going too fast and having questions on exams that we barely talked about
- NA
- Nothing
- The least positive experience was when he called people out and they weren't willing to talk.
- No negative feedback here!
- There is a lot of information to look at for the tests.
- N/A
- Not applicable
- The videos are useful and helpful but too many of them or ones that are too long get kind of boring.
- BR was gone a few times and the TA had to teach. It wasn't to bad, just that BR is much better. No offense to the TA ha-ha.
- The group discussions where you solve an issue with the people around you.
- I didn't find anything not a positive learning experience
- The least positive is the kahoot questions. Sometimes it is a quick turnaround after just learning the information.
- Sometimes Dr. Reiling and Brandon talked way too fast. As someone who types notes, I sometimes didn't even get everything written down that was on the slide. Oftentimes I was more focused on typing than I was on what he was saying.
- I can't think of one.
- It is hard to sit and only take notes but thats what a lecture class is so its unavoidable
- Emails.
- N/A
- I do not have a least positive learning experience from this class. I have enjoyed all of it and it has been my favorite class of the semester. I look forward to it because I am able to learn about the things that I enjoy learning about.
- Not applicable, I am not sure I have one.
- He could slow down a little bit when going through the slides but he goes slower than the TA so we can't complain too much
- None, I enjoy this class.
- I'm not a great test taker, so that's my least favorite part of class.
- Nothing I can think of, other than already knowing a lot of the information.
- During the few sessions when Brandon taught. He has potential and will make a good teacher someday, he just needs practice in lectures and a better understanding in the background of what he is teaching.
- Having to fill out the notes along with listen to class. nothing else.
- I dont really have one.
- I don't know
- I really don't have a negative thing, just not having too much material in between quizzes and tests.
- Other than the topic, the assignments are the exact same every week.
- I wish I could learn about even more animals.
- I don't know if I want to say it was the least positive but nutrition was probably the hardest for me.
- nothing
- N/A
- He has been gone and had his TA teach us but the TA didn't do that good of a job.
- I have nothing bad to say about Dr. Reiling
- N/A
- The least positive learning experience for me are the videos. Personally, I feel like I don't take much away from videos in general.
- N/A
- I don't think there really was one!
- Lectures get long winded and sometimes boring.
- I can't think of anything.
- Going a little fast on the slides sometimes
- not applicable
- I had none.
- N/A
- none
- N/a

- I have had no negative learning experience from this class.
- I genuinely do not have any complaints about this class which is very rare for me to say.
- Nothing! I very much enjoyed this class and learned a lot of useful information that I will need for my possible future careers.
- None
- None
- I didn't really have one, but I guess the reproductive unit was harder for me.
- None
- N/A
- NA
- I hated having to leave cause I just loved class so darn much
- N/A
