• The amount of hands on opportunities in this class gave more practical knowledge than any other class I have taken up to this point, and will be hard to beat going forward.

**You selected 'Course Learning Materials and Tools'. Please provide written comments on your choice.: Bryan Reiling**

**You selected 'Active Learning Opportunities'. Please provide written comments on your choice.: Bryan Reiling**

• I love that I was able to get hands-on experience in the animal production field. There is no better way to learn than to do it yourself.  
 • Really enjoyed getting to do everything with hands on.  
 • Dr. Reiling did a very nice job about letting students learn while actively doing something in this course. ASCI 150 is a very hands on course and I feel as though I have learned a lot from Dr. Reiling because of how hands-on he makes the course.  
 • The whole class is about getting involved & actively learning and we do that a lot and it helps me learn

- This is kind of a nit-pick but sometimes we come to class and get some information on what's coming up in the class and such. And cause you don't really take notes in this class, I don't always get them written down and I feel like I usually forget that information by the time I need it. If we could just get the same information emailed out or posted as an announcement on canvas or something I would really appreciate that.

You selected 'Other'. Please provide written comments on your choice.: Bryan Reiling

- My only complaint was that sometimes the people in the working groups made it difficult to schedule shifts for pig checks and were unwilling to be flexible with group members.

You selected 'Not Applicable'. Please provide written comments on why you selected your choice.: Bryan Reiling

- I have no suggestions for improvement. This class is incredible and I feel lucky to have gotten the opportunity to learn more about the animal production field.
- The course was very good. All communication was great and the class was very hands on.

Describe the most positive learning experience(s) in this class.: Bryan Reiling

- I really appreciate how patient you were with me. Everything I learned was new to me and there were a lot of things I was nervous about doing wrong, but having patience with my inexperience and encouraging me to just try my best really helped me engage and learn in this class.
- The class was great. At some times it was very fundamental but if you had no prior experience on a farm or ranch, it would be a good class for anyone.
- went on tour and smaller class size was great
- The whole class was a great learning experience.
- Probably the outside of class tour. It's kind of an obvious choice, but it's always really cool to get out of the classroom (even though I really like everything we do in the classroom) and see how things work in the real world

### Describe the least positive learning experience(s) in this class.: Bryan Reiling

- Watching the captive bolt gun being used unsuccessfully the first attempt on the lame calf was pretty hard to watch. I did enjoy the necropsy. It might be nice if in the future attending something like that is outside of class time so students don't feel obligated to go.
- I would say just how fundamental some parts of the class were, made coming to class boring sometimes.
- some material was very entry level
- none
- This isn't a specific moment, but more of a vibe. Sometimes, we come into class and were just kinda thrown into things. Which is great usually and very helpful, but sometimes there are things that I think seem obvious that I'm not 100% sure about going in. For example, how do I hold a sheep while waiting to take it up to the scale? Everyone was really helpful, instructors and other students, but I think a little bit more instruction before we just get going would be nice.
